Matt, I would be available during that time frame on Thursday. My supervisor (John Robinson) also expressed an interest in viewing this presentation as well, so I have copied him on my reply to see if that time works for him.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Chris, Dave, and Tom:

I initially neglected to invite the three of you to this web session. Jason Ruf from S2C2 will be hosting a web session on Thursday afternoon to present their model of the MiHpt and LIF data from the Tower Standard site at Haskell Lake on the Lac du Flambeau Reservation in Wisconsin. Jason is available between 1:00 and 4:30 PM Eastern time (Noon and 3:30 PM Central time).

Could you please let me know today if you could be available during that time period to

participate?

Thank you,

--Matt

All,

Jason Ruf with S2C2 is available lead a web session on Thursday afternoon between 1:00 and 4:30 pm eastern to present the Tower model.

That's 12:00-3:30 PM central, and 9:00 AM – 12:30 PM Alaska time.

Please let me know when you could be available in that window, and we'll finalize arrangements.

Thank you,

--Matt

Bob,

S2C2 is tentatively available for a web session either Wednesday or Thursday afternoon next week, but they won't be able to confirm until Monday. I'll check with them again on Monday and then maybe we can nail something down?

Thanks, Matt. I believe that will work.

When can we have our session with S2C2 to go over their model?

Bob,

I talked to Bob Allen today and we will have the recommendations report to you by the end of the month (next Friday). Will that be acceptable?

Thank you,

Hi Bob,

We just received the data visualization report from S2C2 (updated with the LIF data) this morning. I'll check with Bob to confirm when we can have our recommendations report complete and let you know today.

The tech memo summarizing the results of the August groundwater sampling is in the final stages of review right now and should be to you before the end of this week.

Thanks,

Hi Matt,

Any idea of when we will see a draft report?

Thanks.
